Contact Lens Fitting and Evaluation Agreement

The fee for the contact lens fitting and evaluation by your eye care professional is not included in your comprehensive eye exam. **The price depends on the type of contact lens that your doctor decides is best for you.** The fee includes the initial visit and all subsequent visits directly related to contact lens wear and fit within a 60 day period. Fees vary based on the type of lens being evaluated and follow up required.

POLICIES:

- Charges for fitting fees are due in full at the time of the fitting/evaluation.
- Progress checks and other contact lens-related services performed after the 60 day period are subject to normal office visit charges.
- Many insurance plans do not cover the full cost of contact lens fees. You will be responsible for any uncovered costs incurred.
- Professional fees for the contact lens fitting/evaluation are non-refundable.
- You are responsible for scheduling and attending follow up visits to finalize your prescription. Your prescription will not be released until it has been finalized by your doctor.
- Contact lens prescriptions expire after one year in the state of Washington.
- The fitting/evaluation fee does not include the cost of your contact lens supply.
- **Contact lenses related emergencies will be billed medically.**
- **Contact lenses may only be returned within 60 days of initial order. All boxes must be unopened and in unmarked packaging.**

Your signature below serves as your acknowledgment and understanding of your contact lens care provided by Dr. Myers.

Patient Name _____

Patient or Legal Guardian Signature _____ Date _____

(Due to the health risks involved with contact lenses, we require parental consent for all minor patients)

COMPLIANCE IS THE KEY TO EFFICIENT LENS WEAR

HERE IS OUR CONTACT LENS FEE EXPLANATION

Your total contact lens fees are determined by the complexity of your prescription and the type of lenses designed for your specific vision requirements. Even if you are a seasoned wearer of contact lenses I have an ethical & medical obligation to ensure your existing contact lenses are safe and healthy for your wearing habits.

Your Contact Lens Evaluation Includes:

History, Vision and Medical Assessment

- ~ Patient Visual needs analysis
- ~ Prescription considerations
- ~ Medical considerations for wear
- ~ Allergy evaluation for corneal/material interface compatibility
- ~ Proper UV protection recommendations

Clinical Examination

- ~ Determination of Refractive State
- ~ Corneal Curvature for proper contact lens fit & design
- ~ Corneal integrity and sensitivity evaluation
- ~ Biomicroscopic evaluation of the eyelid, cornea, conjunctivae and contact lens positioning as it relates to eye health
- ~ Visual acuity & ocular health assessment
- ~ Tear Film & Tear Flow analysis as it relates to contact lens comfort
- ~ Diagnostic contact lens selection in office
- ~ Dispensing of free trial contact lenses prior to finalization
- ~ Finalization of the contact lens prescription

Progress Evaluations

- ~ Instruction on timely lens disposal and replacement
- ~ Required follow-up evaluations to check for healthy contact lens wear
- ~ Includes **60 days** of follow-up care
- ~ Evaluation of spectacles for backup wear

Patient Instructions

- ~ Instructions on the handling, cleaning, storage and disinfection of lenses
- ~ Proper technique on insertion & removal
- ~ Precautions regarding the use of lenses while swimming and participating in sports
- ~ Advice regarding use of makeup and/or other cosmetics with contact lenses
